

Drivers' Education Information

The School District of Spring Valley no longer employs a drivers' education instructor. To provide convenient access to drivers' education for area residents, the school has arranged for Safety & Respect Driving School of Eau Claire to host classes at Spring Valley High School. Generally, two classroom sessions will be offered: after school is out in June and late February to early March. Classroom sessions are three weeks long.

To register or for more information, please contact Safety & Respect at www.safetyandrespect.com or (715) 834-8625.
